The man who took a pair of overalls (much too long for him) out of the DEMOCRAT building last Saturday morning and left his old ones is known. Will he return them or will he wait to be exposed? Some one has since taken the old ones.

The Junion League gave a social in Mr. Hornby's hall last Friday evening to about sixty children. Some of the parents who were present and enjoyed the good time with the children said it renewed their youth and made them think they were children again.

Cody Cow Boy.—

W. E. Haley of Valentine was in Cody this morning and went out to Joseph Wissers to clerk his auction sale.

Mr. Anderson sr., father of C. J. and W. M. went west on 27 Monday for a visit with his daughter who resides at Casper Wyo. He has been at the Diamond Bar ranch for the past month.

Ainsworth Star Journal—

Geo. Hershey took a run up to Valentine Tuesday evening.

Mr. and Mrs. Bailey, of Wood Lake, visited friends in Ainsworth for a few days the past week.

Ed. Clarke, a cherry county attorney, was in Ainsworth on court matters Wednesday. He was accompanied by Alex Charbonneau a stockman from north Cherry.

Ainsworth went very dry at the election of village trustees Tuesday, resulting in the no. license trustees having a majority averaging some 22 votes. Following is the result: High License—P. C. Wantz 56, C. A. Barnes 56, J. M. Hanna 51. No License—W. E. Moseley 80, J. F. Corbitt 74, C. F. Barnes 75.

The Chadronian—

The absolute fair and intelligent handling of all cases in the District court at this session by Judge Westover was apparent to all visitors at the court room.

Gordon Journal—

Rev. A. R. Julian came up from Atkinson Tuesday night and went down to his ranch at Lavaca Wednesday, to give the boys a few pointers on the management and care of infant bovines.

Mrs. Lauren Jones and children left for Kirksville, Mo., Thursday night, to join her husband, who is attending the osteopathic institute at that place and, incidentally selling a little real-estate on the side.

Geo. Jarchow has gone to Cody where he has a job as prescription clerk in the Dew Drop Dispensary. George is a registered pharmacist in mixing cocktails, mint juleps and sich. He is a clever fellow and we hope has struck a good job.

Justice Bowring of Merriman has issued an order for her saloon to close promptly at 10 p. m., and under no circumstances to open on Sunday. In this respect Merriman is setting an example that might well be emulated by other towns of greater population.

A Gordon man has contracted for two Angora goats from Bennet Irwin's ranch, which he expects to keep on his lawn next summer. As a lawn mower that never gets out of repair, is self propelling and works from early dawn to bed time the Angora goat is said to be it.

There isn't any town along the line (Gordon excepted of course) that has a spicier little newspaper than the Cody Cow Boy. Bro. Heath is giving Cody a lively paper and the town and country surrounding are giving the paper a generous support. We congratulate Cody on her good fortune in falling heir to Bro. Heath and his Cow Boy, and Bro. Heath on his lucky venture in establishing the Cow Boy. May the Cow Boy continue to whoop it up for Cody.

Uncle Dave Cottier was over from Corn Breck last Friday and called at this office. Uncle Dave is the father of Louis Cottier who was killed by an Indian a few weeks ago, and informs us that the report in circulation in Gordon that his son was quarrelsome and had frequent trouble with the Indians, is untrue. On the contrary, he was well liked and not of a quarrelsome disposition. We make this correction at the instigation of the family, who feel grieved that Louis who was a kind husband and father should be unjustly accused after he is dead.

COMMUNICATIONS

Down the River Quite a number have started seeding. The ground is in nice condition if it only remains so.

Mrs. Geo. Bristol will close her school Friday, April 12. An entertainment will be given in the evening.

Any one loosing cattle in snow drifts will do well to call on Paul Charbonneau, he will drag them out dead or alive.

Yes they were married, Sundry Apr. 7th, 1901. At the home of the bride's parents, Mr. Paul Charbonneau and Miss Mabel Ashburn were united in holy matrimony. May they live long and happy is our best wishes.

May they always have good health. And from the prairies of South Dakota accumulate wealth.

Writer The building site is located for the separator station at Sparks and a well bargained for. The next thing I suppose the building will be put up, then comes the blow out with ice tea, tea and coffee with plenty of butter, and fat to season with furnished by the separator station. Lots of music and some dance.

Miss Maloney was absent Monday.

Professor (hurriedly) Oh! pray do not mention such a trifle.

Mrs. Watson visited the high school room Friday afternoon.

Mr. Stephen Estes formerly of the 7 grade left school this week.

The tenth grade recited Roman History in the high school room, Monday.

The 10th grade are planing an expedition to the court room for some day soon.

Mr. Sawyer (who will soon graduate) Professor, I am indebted to you for all I know.

We suppose that the 11th grade will soon be taking upon themselves the dignity of the name of Seniors.

Be at Cornell Hall Friday evening Apr. 12 and see Mr. Collett through the ordeal of disputing a lady's word.

The entertainment at the hall will begin at eight o'clock sharp. Admission 10 cents for pupils, 15 cents for all others.

Miss Ada Everts of the 8th grade and Miss Maude Jeffers of the 9th have given up their school work for the term at least.

Wireless telegraphy will be explained Monday evening Apr. 15 in the M. E. church. Admission 25 cents. This should be of interest to the Physics class.

Someday when you feel like shouldering the world and walking off with it or as tho' space were not quite large enough to contain you just try that physics examination over again.

You will have a chance to witness the event of the season in Cornell Hall Friday evening, Apr. 12. "The Quiet Family" by high school talent. Many new and entertaining specialties.

Several of the 11th grade have been heard to solemnly affirm that they are unable to tell a story. The statement became more understandable when we found that the stories referred to were those which the literature class are required to write.

Several claim that it was not made apparent who wrote the poem which appeared last week in this column. It seems that thro' some mistake the signature was omitted but we hope that Mr. Davenport will consider the omission as apologized for.

We were very much pleased to receive, last Wednesday, a visit from Prof. Barrick and other teachers of the Ainsworth school, all of whom expressed themselves as highly pleased with the work and methods which are being carried out in our school.

The Division of Forestry of the U. S. Department of agriculture has decided to make a thorough examination during the coming summer, of tree growth in the state of Nebraska. The object of this examination is to determine in best protection as a large

scale is possible in this region. Thro' out the greater part of Nebraska there is but a sparse timber growth while portions of the state are practically treeless. From the result of the proposed investigations the Division of forestry hopes to devise means of improving and extending the present forest growth and in the case of the treeless regions to formulate a plan of tree planting whereby the waste lands may be reclaimed. The best methods of tree culture will be considered and a careful study will be made of climate, soil, and the natural enemies of trees in this region. For several years past the Division of Forestry through its section of tree planting has been investigating the forest growth in several of the middle western states. The agents selected for the work to be done in Nebraska this summer are men who have a practical knowledge of the existing conditions and are well fitted for the task of making an exhaustive study of the region. The results obtained from this tour of investigation will be of value to several of the neighboring states for in Kansas, South Dakota and portions of eastern Colorado and Wyoming much the same conditions exist. The valley of the Platte river from Plattsmouth to Kearney and the entire western half of the state will constitute the field of investigation. About May 1 two representatives of the division will begin work at Plattsmouth and go up the river examining and classifying the growth of trees. Especial attention will be paid to the distribution of species and to all efforts to cultivate considerable bodies of timber. In the investigation of tree-planting experiments the failures as well as the successes will be noted for it is desirable to obtain all possible information on the subject. It is expected that Kearney will be reached before July 1. At this point the party will be increased to six members and will be equipped with a complete camp outfit and saddle horses. The following four months will be spent in work that will practically cover the western half of the state. The line of travel will be from Kearney to the western boundary of the state along the Platte thence northeast to Crawford and then in a general southeasterly direction through the sand hills and down the Middle Loup river to Loup City. A wide strip of territory can be studied on each side of the route as the party will be mounted and particular attention is to be given to the distribution and reproduction of the Yellow Pine. Nebraska is the meeting ground of the plains and mountain floras and for this reason much valuable and interesting information is likely to be obtained. Cooperation by the people along the route to be taken by the Government party will greatly facilitate the work. The Division of Forestry has received sufficient encouragement for work already done in Nebraska to warrant the thorough examination that is to be made this summer. The fact that many tree growers in the state are already realizing substantial profits from planted timber is noteworthy. A number of men who have had wide experience in dealing with the problem of forestry Nebraska have written to the Division of Forestry stating that

there is no doubt in their minds of the possibility of increasing the present scant growth of trees and agreeing that even the sand hills can be forested. Among those who have expressed such an opinion are Ex-Secretary of Agriculture, J. Sterling Morton; Prof. Charles E. Bessey of the University of Nebraska; C. S. Harrison, president of the Nebraska Park and Forest Association, and E. F. Stephens. The rapid spread of interest forests will soon bring in landowners to realize that timber may be considered as truly an agricultural crop as wheat or corn. With the division forestry investigating the best methods of tree culture and offering its advice and assistance to landowners interested in tree planting there is reason to believe that in the near future much headway will be made in bringing about a reasonable forest growth on lands now almost treeless. The work outlined by the Division looking to the improvement of Nebraska forests should attract general attention considering that throughout this region forest products are in constant demand, commanding high prices and presenting a profitable field for the investment of capital. Improved forest conditions in Nebraska would mean cheaper fuel, a beneficial influence on local climate with a consequent increase in the value of land.

District court convened Monday with Judge Westover at the bench and his reporter J. D. Scott of Rushville also a host of the legal profession striving for honors. They are here from Rapid City South Dakota on the west to Lincoln and Omaha on the east. We did not have time to go up to hear them all talk but those we heard talked better than a Methodist preacher working for a missionary collection and were more interesting to hear. Among those present were; Chauncey L. Wood of Rapid City who is recognized as one of the leading attorneys of his state; Hon. F. G. Hamer of Kearney who served as district judge of his district for two terms; Captain Allen G. Fisher of Chadron who represented his district two years ago; W. W. Wood of Rushville now county attorney of his county; Frank J. Kelly, F. M. Tyrell and Toys Ryan, among the foremost lawyers of Lincoln and Robert Levas of Lincoln. Thus Valentine has together with our own attorneys, whose talent is well known and recognized has at this term of court as distinguished and able a lot of lawyers as were ever present at court in Cherry county. We give below the proceedings thus far:

- Cattle stealing; State of Nebraska vs George Van Buren—Set for trial this afternoon. Cattle stealing; State of Nebraska vs Edward Cohota—Set for trial tomorrow morning. Horse stealing; State of Nebraska vs Ira Goodin—Oj trial as we go to press. Shooting with intent to kill; State of Nebraska vs William Grooms—Set for Saturday. Grand Larceny; State of Nebraska vs Henry Bomeran—Acquitted. Assault with intent to kill; State of Nebraska vs David George—Convicted of assault with intent to inflict great bodily injury and sentenced to one year. Suit on contract; Emma E. Underwood vs Sons and Daughters of Protection and the Supreme Lodge, Sons and Daughters of Protection—Allowed \$2170.00.
